MUHAMMAD AHAD

FRONTEND DEVELOPER

+92 315 4833554 │ muhammadahad3813@gmail.com │ linkedin.com/in/muhammad-ahad1/

SUMMARY

I'm an adaptable, ambitious Frontend Developer skilled in building intuitive, responsive interfaces and scalable web applications. I thrive in fast paced environments, contributing to innovative projects while continuously growing my expertise.

PROFESSIONAL EXPERIENCE

Internship, TechOverflow   **Feb 2024 - Present**

Role: Junior Frontend Developer

- Designed and developed responsive, user friendly web applications with a focus on performance and accessibility.
- Built dynamic and interactive user interfaces using modern framework like React.
- Identifying and resolving bugs to enhance performance and user experience.
- Followed best practices to write clean, maintainable, and scalable code.

PROJECTS

Project Name: E-Commerce Website

Description:
Developed a responsive e-commerce website using React.js for the frontend and Tailwind CSS for styling. Included an Admin Dashboard to add and manage products efficiently.

Project Name: Personal Portfolio Website

Description:
A personal portfolio website built with React.js, Tailwind CSS, and Framer Motion to showcase my details, projects, and studies with smooth animations and a modern design.

Project Name: Kanban Board

Description:
Created an interactive Kanban Board using HTML, CSS, and JavaScript with task CRUD operations and drag and drop support for smooth management across status columns.

Project Name: E-Learn

Description:
E-Learn is a static educational platform design built with HTML and CSS, featuring clean layout and easy navigation.
